

Puffin Class

Autumn 1 Home Learning Menu

Art—Still Life Drawing

Can you sketch one of your favourite places in the local area?

Can you add tone and texture to your piece?

What autumnal features could you add?

Bring in your beautiful pieces to make our Puffin Gallery shine!

French—Greetings using puppets.

Can you make a finger or hand puppet to practise your French greetings with at school?

Science—living things and their habitats

Can you help build or maintain a habitat in your garden? Tell us about what you have done/take pictures and share with us.

Significant Individuals:

David Attenborough is an inspirational person. He has so many different documentaries and programmes that inform us about creatures on Earth. Research about his life and some of his favourite moments. Make a fact file and share something you have found out with the class.

Maths:

Learning multiplications is a vital part of KS2 maths learning. It supports all the different units in many ways. Take time each week to learn your multiplications. There's so many ways you could do this. Try:

TT Rockstars (app or webpage)—login using your school details.

Timestables.co.uk—webpage

The aim is to know all multiplication facts to 12 x 12 by the Summer Term.

Reading for Pleasure:

Anthony Browne has written some fabulous children's stories. See if you can find and read any of his stories.

Read as much as you can. Find authors and genres that you love and don't want to put down.

Explore non-fiction information books that tell you more about the wonderful world.

Read instructions, poems, recipes and delve into newspapers and magazines.

Geography:

When you are out and about in the local area—look carefully at how the land is used. What is around Farndon? How is Farndon the same, yet also different from Newark? How are different land spaces used?

Forest Schools:

We will take part in Forest Schools each Friday of this half term. Can you make a diary of the activities you took part in each week? What skills did you learn? What was your favourite moment of each week? What did you build or make?
